Notes to Consolidated Financial Statements

Note 3. Summary of Significant Accounting Policies

(b) Revenue Recognition, page F-9

30. Your disclosure throughout the document emphasizes the company’s suite of technology offerings and cloud-based solutions, yet most of the company’s revenues are classified as product revenues. Your disclosure indicates that product revenues include dispensing fees and administrative per-member per-month ("PMPM") fees. Your disclosure on page 60 indicates that product revenues also include fees relating to your pharmacists' collaboration on a patient's medication management. Please describe for us your basis for presenting these revenue streams as product revenues. Refer to Rule 5-03(b) of Regulation S-X.
31. We note your disclosure on page 94 that the MedWise Advisor software can be used independently or readily integrated with other pharmacy management systems, long-term care clinical systems, case management platforms, industry-leading EHRs or dispensing software. Please tell us whether these other management systems, platforms and software are the company’s offerings and whether customers can take possession of MedWise Advisor or any other software product offering.
32. We note your disclosure that revenue generated from set-up fees is deferred and recognized ratably over the estimated term of the contract. Please describe for us the nature of set-up services performed and quantify the set-up fee revenues recognized for the periods presented. Revise to disclose whether installation fees are non-refundable and your determination as to whether they have stand-alone value to the customer.

33. You disclose that under your risk adjustment contracts, there are three revenue generating components: set-up fees, PMPM fees and hourly consulting rate charges. We note that you provide certain disclosures regarding the deliverables within these multiple-element arrangements. Please revise to provide the disclosures required by ASC 605-25-50-2(d) – (f). If applicable, similarly revise your policy disclosures regarding any other multiple-element arrangements related to your other offerings.

Note 11. Income Taxes, page F-32

34. We note your disclosure on page 67 that the income tax benefit for 2014 was primarily the result of deferred tax liabilities that were recorded in connection with the acquisition of SMPP, which created a source of recoverability of a portion of previously reserved deferred tax assets. Please describe for us how this is reflected in the rate reconciliation on page F-34. Describe for us the composition of the “other” line item in the reconciliation. Refer to Rule 4-08(h)(2) of Regulation S-X.

Note 12. Redeemable Convertible Preferred Stock and Stockholders' Deficit

(c) Redeemable Convertible Preferred Stock, page F-35

Please revise here and in your pro forma presentations throughout the document to disclose the terms pursuant to which the preferred shares automatically convert.

39. We will process your submission and amendments without price ranges. Since the price range you select will affect disclosure in several sections of the document, we will need sufficient time to process your amendments once a price range is included and the material information now appearing blank throughout the document has been provided.
